

## MiGreat!

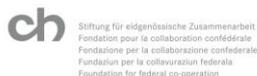

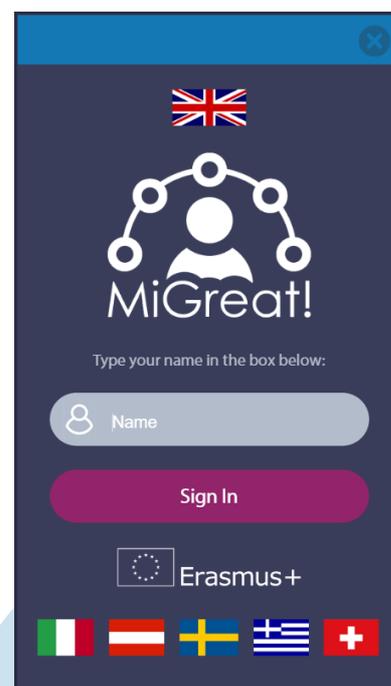

The second intellectual output of Migreat! Project is ready! The App tool is for people who have moved to one of the partner countries and want to start to manage their career and future training in their new country.

This app allows you to explore the history and culture of your new country and what it's like to work and study there.

It will help you to know your strengths and weaknesses, and to understand what is the fittest job for you, according to your experience and knowledge. How? Through skills and knowledge questionnaire which directs you to the elearning modules appropriate for you!

Moreover it will provide useful links for the sector you are interested in working in, and some fun cultural and scenario based games to simulate potential situations you could live in the new country and to be prepared to them and to behave as a local citizen would do.

Download it from your Store and enjoy it!

## MiGreat!

Furthermore, Outputs 3 and 4 are in progress and almost ready for use!

The third output consists of 11 Scenario based modules which will support migrants and refugees with information and training on specific aspects to enter the labour market and continuous training.

The fourth output consists of the platform in which you can find the modules, the activities, the exercises which will help to well integrate in your new country.

The partners are working to complete these outputs which will be available soon!

### 4<sup>th</sup> Transnational Meeting: Athens

The partners of the MiGreat project held their 4<sup>th</sup> transnational project meeting in Athens, Greece on the 19<sup>th</sup> and 20<sup>th</sup> of April. They discussed the progress so far and the next steps that need to be taken in the months to come. The specially designed application, which is one of the projects main outcomes, is shaping up to be one very valuable tool for migrants in Europe and the OER platform is now more enriched than ever! The partners from Italy, Sweden, Austria, the UK and Greece are all committed to the MiGreat project and work their hardest to provide the best possible results.

More information and full documents in partners languages are available online: [www.mi-great.eu](http://www.mi-great.eu)
